This following is an extract from a speech by Lyman Trumbuti while be was a Republican Senator:

The Democratic party has never yet done an act that would commend it to the faverable consideration of the people of the United States, but, on the contrary, its traditions and its acts are, an ever hame been, a standing menace to the progress and civilization of the nine-tends essenty. The Democracy, in their National

platform, have pledged themselves anew to the "traditions of the Democratic party," and as Lyman Trumbull is the intic numinee for Governor of Illimin it is well that the Democracy should be familiar with Trumbull's opinion of the traditions and arts of the party that has placed him in nomination for the office of Governor. He says "its traditions and its arts are, and ever have been, a standing menace to the progress and civilization of the nineteenth century."

WHAT is the Democratic candidate for the Vice Presidency afraid of, we woulder? The Indianapolis Sentinel, of Saturday, has this mysterious paragraph:
There are warm times shead for

some people. Hon. William H. English proposes to prosecute, under the Grabes Libel law, persons who publish certain libelous matter which he under ands in in the possession of correspos dente of various papers published abroad. As the law covers the circulation in this State, the proprietors are liable. Also, Mr. English has taken the preliminary step of securing dis-tinguished counsel and will see that the

Accompting to the Chicago Journal the Democratis mob which breaks up Republican meetings and hurnhe for Jeff Davis has commensed operations at Vera III. This is Vera thin, but it beats nothing.

B. Louis Post Disputsh.

You may mistaken—it "beats every—them to the start of the

thing. It "best" Jeff Davis, and has "besten" the Democratic party for the past twenty years, and if persisted in, will "beat" it for twenty years to come. -Chicago Journal.

How will the New York Germans vote? The other day, at Silver Lake, in the western part of that State, vote was token by a comple of gentle men, one a Democrat and one a Republions, of the members of a German ex-

carsion party from Rechester, with the following result: Garfield, 136; Hancock, 53; Weaver, 2; Neal Dow, 1. And on the next day a vote was taken of another exercises, with the following result: Garfield, 107; Hancock 22 ; Wester, 1 ; Dow, 2.

TER consus returns from all but thistens counties of Michigan give a population of 1,435,355. With a moderate estimate of the thirteen counties still to be returned, the total population of the State is computed at 1,-000,000, which would be an increase of 425,718 class 1870.

Ten population of Kanna is 1,000. Office of 644,601 since 1876. Consider population is 196,161, being on instead of 155,206 in ten years.

Indon't make us "nervous," as the RE-Irdon't make us "nervous," as the REPUBLICAN SUGGESTS, but we regret that there is so much of the spirit of Miterness and hate in the bosom of the editors of the REPUBLICAN who were so peacefully inclined in 1861, when there was such a demand for mem. When they call the democratic party, the "copperhead party," they growly insult every democratic soldier, and every democratic citizen who sustained the Union. None but a stay-at-home, or one who skulked citizen who sustained the Union. None but a stay-at-home, or one who skulked under a sutier's wagon or an ambulance in time of danger would talk thus now 'Copperheads!' We pity our neighbors that they so far forget the kindly treatment and paironage that they have received from the democrate of Macon county that they should now call them 'copperheads.' Democrate, too, who were just as loyal as the said editors.—Review.

Will the editor of the Review please inform the public what position he occupied in the army? It is not known in this community whether he was in the front of battle, or skulked under a sutler's wagon. His political record in Decatur would indicate that if he had been in the army, he would have been found very close to a sutler's wagen. However, it is generally believed in this community that he did not belong to that class whom he charges we grossly insult-namely, the democratic soldier and citizen who sustained the Union. We rather suspect that he belonged to that other wing of his party who stayed at home and attended Demecratic conventions, resolving "that the further offensive prescention of this war tends to subvert the constitution and the government." These were the kind of fellows who were called copper heads during the war, and not the Democratic soldier and citizen who sustained the Union, and while the word copperhead may be particularly distasteful to the editor of the Review, he should not so far distort our language as to make it apply to that portion of the Democratic party who were loyal to the | their asvlums. Union. And we would further suggest to said editor that he need not trouble himself about the "kindly treatment and patronage" we "have received from democrats of Macon county." We have known democratic editors who would have succeeded better had they employed their time in securing patronage for themselves and given less attention to the business of other people, and for the benefit of the editor of the Review we will say that if we had depended for support upon that class of people who were copperheads during the war, we would long since have been in the same condition of Dr. Tanner. It is also proper to remark that if democratic papers received no support from Republicans, their condition would be even worse than that of the man who proposes to fast forty days. We trust the editor of the Review will confine himself to legitimate journalism.

POLITICAL RECORDS.

What the Republicans Have Done.

When the republicans came into control of the government they were confronted by an armed rebellion; the authority of the nation was defied in nearly one-half of the Union; they were opposed by a hostile and rebel government; the army and navy of the Union were dispersed; the arsenals were de-pleted; the treasury was beggared; the credit of the government was destroyed, and all this was the work of the demoeratic party. The republican party proved equal to the perilous situation. They sensuseed Southern nullifica-

And all this the republicans have done in the face or democratic obstruction and hostility.

Why should a party with this record be set aside to give place to a party that opposed and resisted these measures at every step, and would, if possi-ble, have defeated every one of these republican nets of wisdom, to which the country to day owes its unity and prosperity.

WHAT THE REPUBLICAN PARTY HAS NOT DONE. The republican party have done some

noble things,—things that will be remembered as long as there is history. But there are some things they did not do.

They did not use an army to force alavery into Kansas.

Can the Democratic party say as much. The people can trust a party that has not done these things, but they cannot trust a party that in whole or in part did do them.

NASBY explains why all the Brigadiers and Bourbons support Hancock, Union General, so unanimously. In his capacity of democratic expectant, willing to be reconciled if he can have his own way, Mr. Nasby writes to the assembled democracy of the Corners at Bescora's:

Does it make any difference to the Corners who the figger-hed is that is put up? Not at all. Et Hancock is the way, walk ye in it. Does any one suppose that Hancock, wich is to be elected, of he is elected at all, by the Solid South, is a goin back onto the Solid South after his eleckshun? Does the ass know his master's crib? Is he a-goin to turn and rend the hand wich feeds him? Are we so stoopid ex to suppose that the Southern brigadeers who run the Cincipnati convenshun didn't know what they was about? Hevin but one thing to do, do you suppose they didn't go and do it? To win we hev got to kerry some Northern states, and would it hev been polisy to put up a brigadeer in gray to hev akeered the Northern Dimecracy whose stumieks are still week? LOUISVELLE, Ky., Aug. 2.-The elections to-day passed off very quietly throughout the state. Nominations were made by the republicans in a very few counties, and the vote polled was light. Circuit Judges and Commonwealth Attorneys were elected in each of the eighteen judicial districts, and democrats are elected in at least fifteen. Circuit clerks, sheriffs, magistrates and onstables were elected in all the ounties, and municipal officers in many cities and towns. Democrats were elected generally. In consequence of the many candidates voted for in this city it will be late before the result is

MOBILE, ALA., August 2.—An elec-tion for State and county officers took place to day. In opposition to the reg ular Democratic ticket was one made by fusion of Republicans, Greenbackers and Independents. Verbal reports from the election officers at the closing of the polls show a clear majority for the straight Democratic ticket. Reports at the Democratic Executive Committee's heavy Democratic vote. Further returns in Mobile county shows a clean sweep for the Democrats against Republicans and Greenbackers. The lewest candidate will have 1,000 majority.

MOBILE, August 2.—Specials to the Register say that Tuscaloosa, Perry, Dallas. Bullock, Macon and Montger ery counties go heavily Democratic. Returns from Madison, Limestone and Morgan are highly favorable. Fifty thousand majority at least for the State

WASHINGTON, Aug. 2 .- From what has been learned at the census office and elsewhere as to the present population of the country, it is clear that if the congressional apportionment is not changed by onlarging it, the number of members to be elected in 1883 will be nearly 400. The present apportionment is 131,425 to each congressional district. The basis will have to be enlarged, or the hall of the house of representatives will not hold them all. By resentatives will not hold them all. By where a fierce dog belonging to the no possibility can seats and deaks be Wilsons followed them, and leaping at crowded in for nearly 400. The preseut number of members is 293. The basis will probably be enlarged to about 170,000 to each congressional district, which will give about 290 members. A basis of 160,000 would give 312 members, and a basis of 150,000 would give 333 members, which would be an unwieldy body. The present basis would give about 380 members. The basis has been changed after every census since 1790. The changes were as follows:

Basis Year ,20,000 1848,

It is thought here that whatever is done the number of members should not be increased. An effort will be made to enlarge the basis, so as to reduce the number of members to about 250, which would be as large as is convenient for any legislative body, but probably the number will be fixed at about 300, and the basis changed accord-

New York, Aug. 2 .- Dr. Tanner had another vomiting fit about 10:15 last night, when a mustard plaster was placed over his stomach, which relieved him. About 12:20 he had another attack of vomiting. At one this morning

he was quietly eleeping. Dr. Tanner, when he began his fast, weighed 157 pounds; when placed on the seales last night, he turned the beam at 1271 pounds. His pulse to-

night is regular, but rapid. For the first time since he commenced his fast Dr. Tanner admitted, this morning, that he felt very weak. He said his stomach was in bad condition but expressed confidence in his ability to secomplish his undertaking. At

noon he was quietly resting. At 5 o'eleck the Dostor started out on his usual evening drive, accompanied by physicians. He returned at 7, and was very cross and peevish. He rested on his cot, and seemingly slept soundly for some hours. At 10 he arose, and, undressing, retired for the night, but did not rest quietly, his stomack being out of order.

SAN ANTONIO, TRX., August 2.--A dispatch from Gen. CHICAGO, August 2.—Chairman Jowolf of the Republican National Commit-ties, having invited leading men of the Irish Republican party of this State to participate at the meeting of the National Committee at New York, August 6. Judge Morrison of this city has accepted their invitation and will attend the meeting.

heated discussion over the Hancock let ter of acceptance. They pronounce it toe conciliatory in tone and not sufficiently aggressive to meet the general sentiment of the party. It appears from information received here that the conadential friends of Gen. Hancock and the regulars of the party like English, who always pronoused the war a failure, and by every means at their command endeavored to betray the Government into the hands of the rebels, came very near an open rupture on the question of bayonet rule. They insisted upon a wholesale attack on the whole system of exercising the vested force of the Executive in coercing acquiescence in the passmount authority of the Government, and favored the most radical denunciation of constitutional authority which they designated as bayone rule, and carried to the extreme of state sovereignty the old secession no tion. The friends of Gen. Hancock informed the democratic managers that such a position he could not assert short of sacrificing his commission, and he was not willing to risk a permancy on the result of an election surrounded by many very serious doubts. After much delay it was decided to adopt the compromise of General Hancock, the presidential candidates rooms from the interior of the State writing one sort of a letter not to in-leave no doubt of Alabama polling a terfere with his allegiance to the Union, but the constitution and the laws, and English catering to the controlling rebel influence of the party. The democrats of this latitude highly compliment English for his declaration of sound demogratic doctrine and are disposed to disparage Hancock.

KANSAS CITY, Aug. 2-Two tramps entered the house of Mrs. Wilson yes-terday afternoon and demanded food. Being refused, they made vile proposals and threatened violence, and there being no one in the house but Mrs. Wilson and her mother, lunch was speedi ly prepared. While the vagabonds were feasting, the old lady quietly went up stairs, procured a shot gun and coming down got the drop on the foragers and quickly regained possession of the premises. As the tramps were running toward the river, she fired and brought one of them, Andy Johnson, down. He managed, however, in company with his companion, to get over the river, the throat of the wounded man, lacerated him fearfully. They finally es-

Burlington, Iowa, August 2.-In Hawkeye interview, Governor Gear, of this State, expresses the opinion that lows will give Garaeld and Arthur a clear majority of 40,000, and a plurality of from 75,000 to 80,000. He believes the Republicans will carry all the Congressional districts in the State. He says: "We will poll every Republican vote this year. I do not hear of the other hand I hear of many accessions. Mexico, Mo., Aug. 2.-A large number of citizens yesterday attended the "Sanc-tified' Camp Meeting, which is in pro-gress about 24 miles from Santa Fe, in Monroe county. The meeting is con-ducted by Bro. Allen, a beardless, boylah looking itinerant exhorter, assisted by a lot of "sanctified" women. A great number of persons have "fell," and now sauctified, set apart, as it were. About one mile from the grounds is a place called "Leadville," Leadville itself could not be one-half as void of holiness or as replete with anti-hollness as this adjunct to what is called a "holiness" meeting.— Elder John A. Brooks, of the Christian church, yesterday denounced these most-ings is general from his pulpit, and said the doctrine was a dangerous heresy that could not result is any good.

A greenback crator, the other day, said that he "had always been a democrat, but the democracy are as hollow and insincere as the republicans. While crying out against treeps at the polls they carry every southern state by the shotgun and bulklosing." HARPER'S Weekly makes a good

point in a cartoon representing the rapid reduction of the public debt, and Miss Columbia inquiring of the bystanders : "Which party will you trust—the one that has made the debt, or the one that has thus far paid it?" Sundrole of Ladius,

is the aim of all, and their duty as well as their right. To meet these requirements Lins & Scruggs have spared neither time sor labor. Their afforts have been to sell a great many goods 'at assall profits, and this they have accomplished. But they cannot afford under these circumstances to have the time of their saleament taken up in exchanging goods, buildes incurring additional losses on the goods exchanged. Those who deal with us are not willing to buy goods of us "out of order." Why then should they try to force them upon us, and sometimes by a threat to deal elsewhere if we refuse their demands. This threat springs from ignorance and selfishness, and will not change our purpose in refusing to take goods back, when the fault is unth the purchaser. And those who, advertise to take buck goods indiscriminately, must necessarily have a respect stack; or sell them to others as perfact; or if they lose, they are compelled to make up their loss, they are compelled to make up their goods in the beginning than they are sworth. It is hardly possibly that we should be always right, and we say again, as we did in a published statement sometime ago, that we guarantee to take everything back should it not prove as represented, whether in quality, color, or price, or where the mistake is with us.

A sore-eyed tramp giving his name at

wanted to get in jail for as indefinite period-he didn't care for hew long or how soon. He got there under the foilowing circumstances: Late in the evening he sauntered up Water street peat Hubbard & Bwearingen's drug store, and when opposite the Water street front of that store he threw a brickbat against one of the plate glass windows, making a loud crask, but doing no damage of consequence. John Swearingen was busy at the time walting upon a customer, but as soon as he got through he went to the side door, but saw no one whom he thought could be guilty of such a mean trick. However, he noticed a needy-looking tramp going slowly up the street, who stopped in front of H. W. Fenton's clothing store, the clothing hanging out there attracting his attention. The trump handled the goods for a few moments, and then deliberately appropriated a coat and walked off with it, but one of the clerks in the store saw the follow ;walking away with the garment and took after him. The clerk made the tramp roturn the cost, and then Kor some reason best known to himself, no doubt, he let the robber go his way in peace. A few minutes after this occurrence Mr. Swearingen saw the tramp pass his store with something in his hand under his coat, and go cast on Main street. When in front of the south entrance to tramp removed his hand from behind him plate glass window, completely demotish crowd of people, all of whom expressed tunately Officers Hewes and Williams soon captured the thief, who, as above stated, gave his name as Larkins. The officers shook him up lively and hustled

A Subject of Interest to All.

The money annually wasted in Dece

tur on comparatively worthless boots and

shoes amounts, no doubt, to many thou

sands of dollars. This is partly owing to

a mistaken idea of economy on the part

of customers, inducing them to endeavor

to buy at too cheap rates, and partly to

the fact that many dealers are over anx-

tous to sell at a low figure and at the

same time just as anxious to make a big

profit, and so sell goods that never ought

to be made. The best is the chespes

Chamber's Encyclopædia. 15 Vols. Over 13,000 Pages. Price During July, \$6.25.

Among the wonderful things which have been accomplished for lovers of good books by the "Literary Revolution," perhaps the most wonderful is the reproduction of this great Ency-lopedia at a merely nominal cost.

It is a verbatin reprint of the last English edition, in 15 beautiful volumes, clear nonpareil type, handsomely bound in cloth, for \$1.50; the same printed on finer, heavier paper, wide mar-ring, and bound in half Russia, gift top, price \$15.00. The first ten volumes arready for deliv-sty. Vol. 11 will be ready July 18th. The remaining volumes will be completed by Ostober now.

An Amazing Offer. The more widely and rapidly these volumes are scattered, the greater is their influence in inducing other purchasers of this and our maps standard publications. Accordingly we give special terms to early subscribers.

To all, whose orders and mapper are received distinct the product of the

inducing other purchasers of this and our many standard pulmositions. According to special forms to early subscribers.

To all, whose orders and money are received during the month of July, we will supply the southness in cloth, for \$6 25, and in half Russia, git top, for \$12.00. To any one sending from any place, where we have no special agent (assually the leading bookselder of the town), a club of five orders, we will allow a commission of 10 per cent. The volumes issued will be sent at once in express, and the remaining volumes whom completed.

A specimen volume in cloth will be sent, postpaid, for 50 cents, or in half Russia, gift top, for \$1.00, and may be returned at once, if not satisfactory.

The "Chamber's Broycopenia" comprises the first 15 volumes of one "Library of Universal Knowledge," and the remaining volumes, complete in themselves, will be sold separately when published.
